

### About Angel Flight West:

Angel Flight West (AFW) (<http://www.angelflightwest.org>) is a 31-year-old organization of volunteer private pilots offering the gift of flight to thousands of stricken children and adults. Along with its commercial airline partners, AFW provides non-emergency air transportation without cost to qualified passengers. AFW volunteer pilots donate their time and all their expenses to provide access to treatment at faraway medical centers; transporting blood to critically ill patients; flying special needs kids to summer camps; and many more humanitarian missions.
